

Aluminium Hose Reels

Alumi-Pro® Series

Alumi-Pro® Series “Aluminium Professional-Grade” spring driven hose reels have the strength of steel without the weight. The Alumi-Pro® series is modeled after the popular P Series line of hose reels, but are uniquely constructed out of high quality Aluminium. They’re compact, lightweight and non-corrosive making them the perfect choice when polypropylene or plastic hose reels are not the preferred choice due to their limited strength and durability.

ALUMI-PRO® Offers...

- Industrial Strength Powder Coated Aluminium Construction
- Compact Space Saving Size
- Solid Brass BSP Swivel
- For Applications That Require Professional Grade Strength Without The Weight
